My mac is on OS snow leopard I am unable to upgrade to OS mt lion unless I get more RAM.. It's amazing, and it's being improved day by day Now it also includes 3D cities, but that's not as stunning as viewing the streets with the option Google Street View which places you in the middle of the street viewing the real images of the streets included (which are more and more day by day).. Now has jumped lightyears ahead of all that, offering an impressive interface from which to explore the world with an unimaginable precision and level of detail, and with added tools for discovering remote places all around the planet.
